

A Sheffield Assessment Solution

March 2014
update

The Sheffield Assessment System is being developed with the support of approximately fifty Sheffield schools. We are very aware that schools are reaching the point where they need to make decisions about next year, and grateful to schools for waiting to look at the Sheffield scheme before looking elsewhere.

The scheme will support assessment and planning for children at all stages of development. There will also be materials to support schools in sharing the new system with staff, children, parents/carers, governors and OFSTED. The scheme is being shared with various national organisations to quality assure it. Any Sheffield school who want to use the materials will be able to access them for FREE.

You can see how the scheme is developing and find out more at any of the meetings on the right. Many of the dates are existing Headteacher meetings but there are also some additional dates just before Easter. There will be further dates in the summer term before the materials become available online in June.

When can I find out more?

- **Tues 11th March @ Rainbow Forge – Locality D – HT meeting**
- **Thurs 13th March @ Low Edges – Locality E – HT meeting**
- **Tues 18th March @ Montenev – Locality A - HT meeting**
