

# A Sheffield Assessment Solution

In response to national curriculum levels being removed and not replaced, the Sheffield Assessment System is being developed.

It will include an assessment scale which starts at Foundation Stage, includes learning steps for children currently assessed against p-levels, and progresses beyond KS2. The learning steps will have exemplification to help teachers to make judgements and the system will have accompanying materials for children, teachers, parents/carers and governors.

The Sheffield Assessment System is currently being developed by almost fifty school leaders and practitioners from approximately thirty different Sheffield schools. Anyone who wants more information or would like to get involved should email [sbetts@malinbridge.sheffield.sch.uk](mailto:sbetts@malinbridge.sheffield.sch.uk)

Any Sheffield school who want to use the materials will be able to access them for **FREE**.

What next?

When?

Look out for  
key dates  
... coming  
soon!

- During the spring term there are eight working groups developing the content for the Sheffield Assessment System.
- We are hoping to come to each locality learning community meeting (there will also be a couple of additional dates) in Spring 2<sup>nd</sup> Half Term to share an outline of the system and some examples of the materials.
- During the summer term the materials will be available to download free online for Sheffield Schools.
- In the summer term there will be training sessions for school leaders and materials to support schools in training their staff.
